PROFILE SUMMARY

Data Analyst Fresher with hands-on experience working on SQL-based data analysis, Python EDA, and Power BI dashboard reporting across sales and user activity datasets. Experienced in cleaning large datasets, building KPI dashboards, writing optimized SQL queries, and creating DAX measures for performance tracking. Strong focus on data accuracy, reporting automation, and business performance analysis to support operational and decision-making needs.

EDUCATION

Bachelor of Computer Science

Shree Venkateshwara Arts & Science College, Gobi, Tamil Nadu

05/2025

Gobi, Tamil Nadu,
India

EXPERIENCE

Internship - Data Analyst

Chennai

Careerschool HR solutions

- Worked on real-time business intelligence projects involving E-commerce iPhone Resale Market Intelligence (USA) and Airline Performance Analysis using Microsoft Excel, SQL, and Power BI.
- Performed data cleaning, data transformation, exploratory data analysis (EDA), KPI tracking, and dashboard creation to generate actionable business insights.
- Used SQL for querying datasets, filtering records, joining tables, and performing analytical operations to support reporting and decision-making.
- Designed interactive Power BI dashboards and Excel reports with Pivot Tables, charts, slicers, DAX measures, and data visualizations to analyze sales trends, customer behavior, revenue performance, and market trends.

SKILLS

SQL & Databases

SQL (Joins, Subqueries, CTEs, Aggregations),
MySQL, Query Optimization

Business Intelligence & Visualization

Power BI, Power Query, DAX Measures, Data
Modeling, KPI Dashboards, Trend Analysis

Python

Python, Pandas, NumPy, Exploratory Data Analysis
(EDA), Data Cleaning

Excel

Pivot Tables, VLOOKUP/XLOOKUP, Data Validation,
Charts

CERTIFICATIONS

- Data Analytics Job Simulation (Forge) - Deloitte
- Data Analytics Certification - Careerschool HR Solutions

PROJECTS

E-commerce iPhone Resale Market Intelligence

Tools: Microsoft Excel

- Analyzed large-scale US refurbished iPhone resale datasets using Microsoft Excel, including pricing, sales volume, revenue, storage variants, and seller performance.
- Built interactive Excel dashboards with KPI cards, Pivot Tables, charts, slicers, and platform comparison reports for business insights.
- Performed market intelligence analysis on platforms such as eBay and Back Market to identify top-performing models, pricing trends, and regional sales patterns.
- Conducted data cleaning, trend analysis, competitor analysis, and revenue forecasting to support data-driven decision-making and reporting.

Airline Revenue & Passenger Analysis Dashboard

Tools: Microsoft Excel

- Developed an Airline Performance Analysis Dashboard in Microsoft Excel to monitor passenger trends, route profitability, revenue, and aircraft utilization.
- Analyzed key KPIs including Load Factor, Flight Revenue, Passenger Demand, Quarterly Performance, and Profitable Routes using Pivot Tables and advanced Excel formulas.
- Created dynamic visualizations and dashboards to identify top-performing routes, least profitable routes, and seasonal travel trends for operational insights.
- Applied data analysis, business intelligence, reporting automation, and dashboard storytelling techniques to improve airline performance evaluation.
